

Connect Mate-GHC 2025

Make sure you set it up prior to the event and happy networking

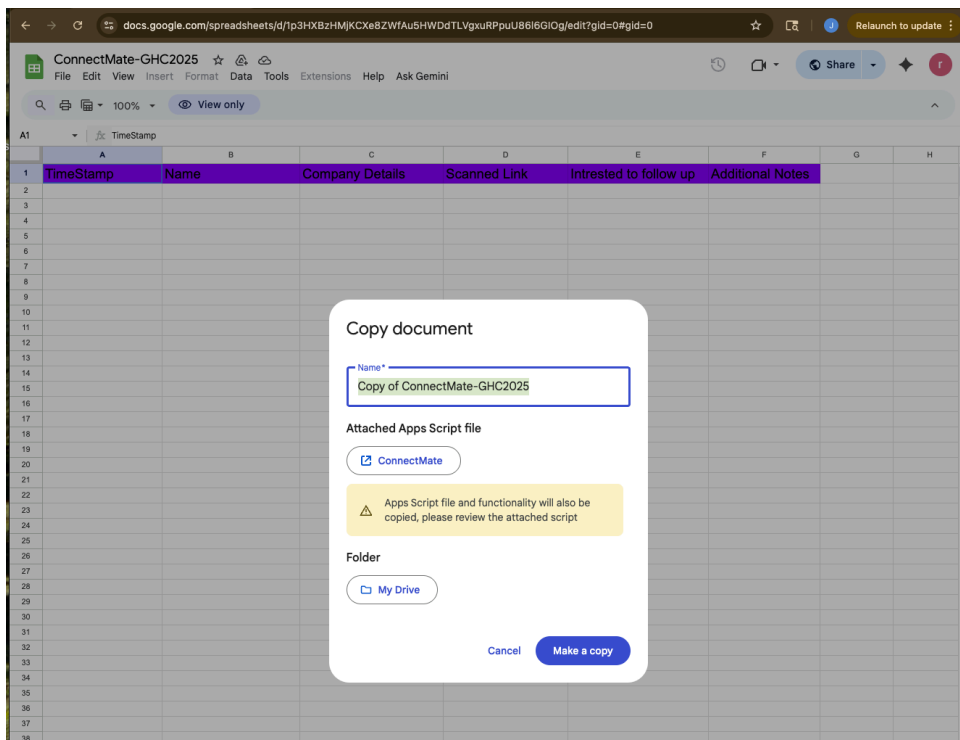

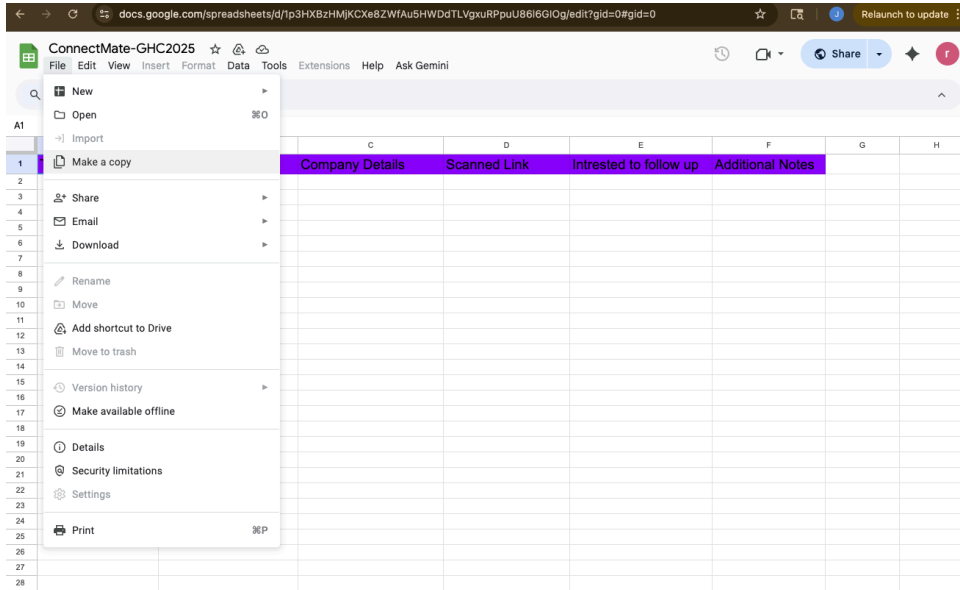

Step 1: Open the Spreadsheet Link shared

[\[https://docs.google.com/spreadsheets/d/1p3HXBzHMjKCXe8ZWfAu5HWDdTLVgxuRPpuU86i6GLOg/edit?gid=0#gid=0\]](https://docs.google.com/spreadsheets/d/1p3HXBzHMjKCXe8ZWfAu5HWDdTLVgxuRPpuU86i6GLOg/edit?gid=0#gid=0)

[illegible]

Step 2: Make Your own copy

Go to Menu File-> Make a copy

You should make your own copy of your spreadsheet

docs.google.com/spreadsheets/d/1qbtvBJxc48qUsieYDQ70egzsuh-K_Jy_zDixGvMPS4/edit?gid=0#gid=0

Copy of ConnectMate-GHC2025

File Edit View Insert Format Data Tools Extensions Help Ask Gemini Connect Mate - GHC 2025

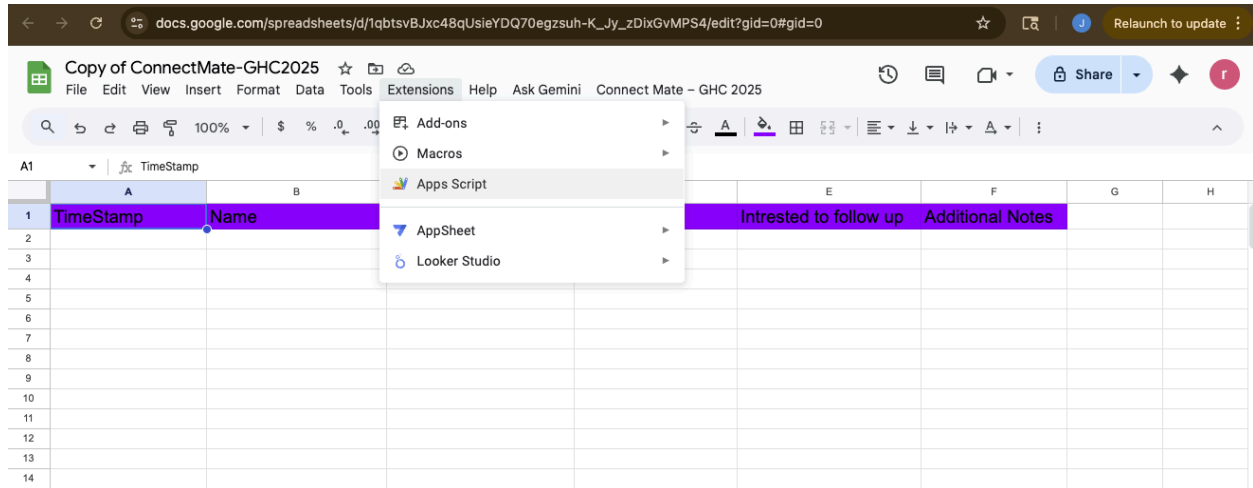

100% 123 Default... 14 B I A

Step 3: Deploy the App

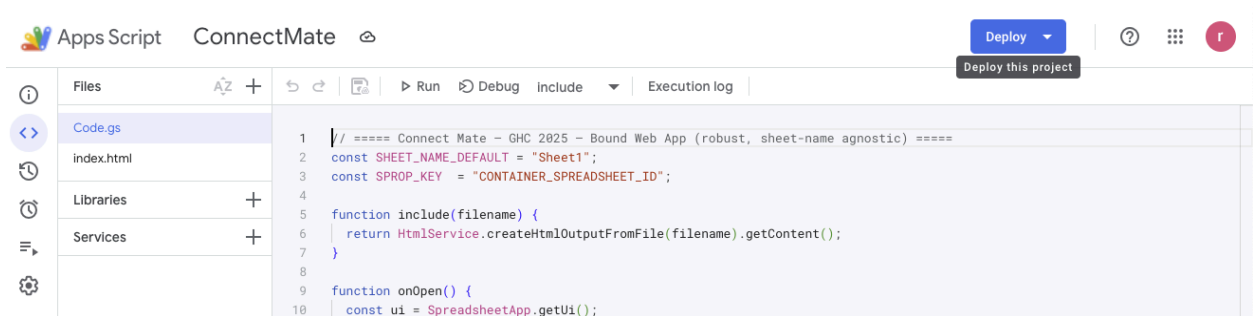

Once that's done Go to Menu bar **Extensions**-> Click of **Apps Script**

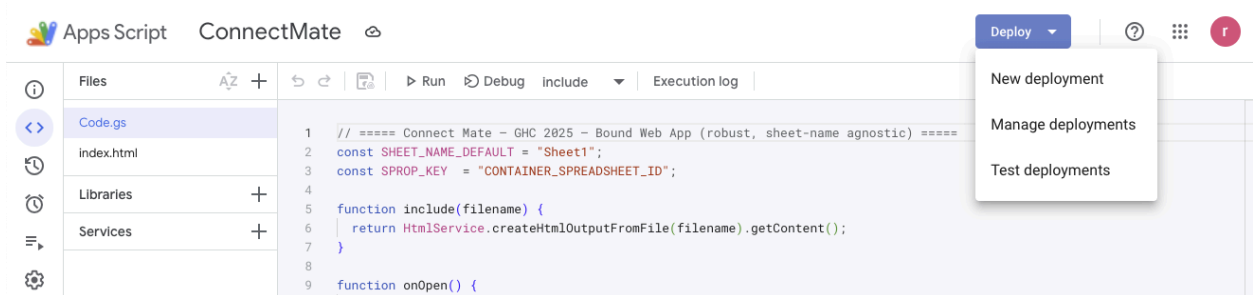

Once you click the **Apps script editor opens** and You will be able to see the file [Code.gs](#) and Index.html -(files to run the application) -> **NO NEED TO CHANGE THEM- Unless you wanna customize**

Next click on the **Deploy** Button

Click on **New Deployment** Option

Select type : **Web App**(From the Gear Option)

New deployment

⚙️

Configuration

?

Enable deployment types

⚙️

Please select a deployment type

Cancel

Deploy

Select these Options and Click Deploy Button

1. Execute as : me(your gmail)

2. Who has access: Anyone with google account

New deployment

Select type	Configuration
Web app	<div><div>Description</div><div>New description</div><div>Web app</div><div>Execute as</div><div>Me (recarnationtechtitans@gmail.com)</div><div>The web app will be authorized to run using your account data.</div><div>Who has access</div><div>Anyone with Google account</div><div>This can also be used as a library. Learn more</div></div>

Cancel

Deploy

Step 4: Give Permissions to Your Gmail account to access the application

Click on Authorize access button

New deployment

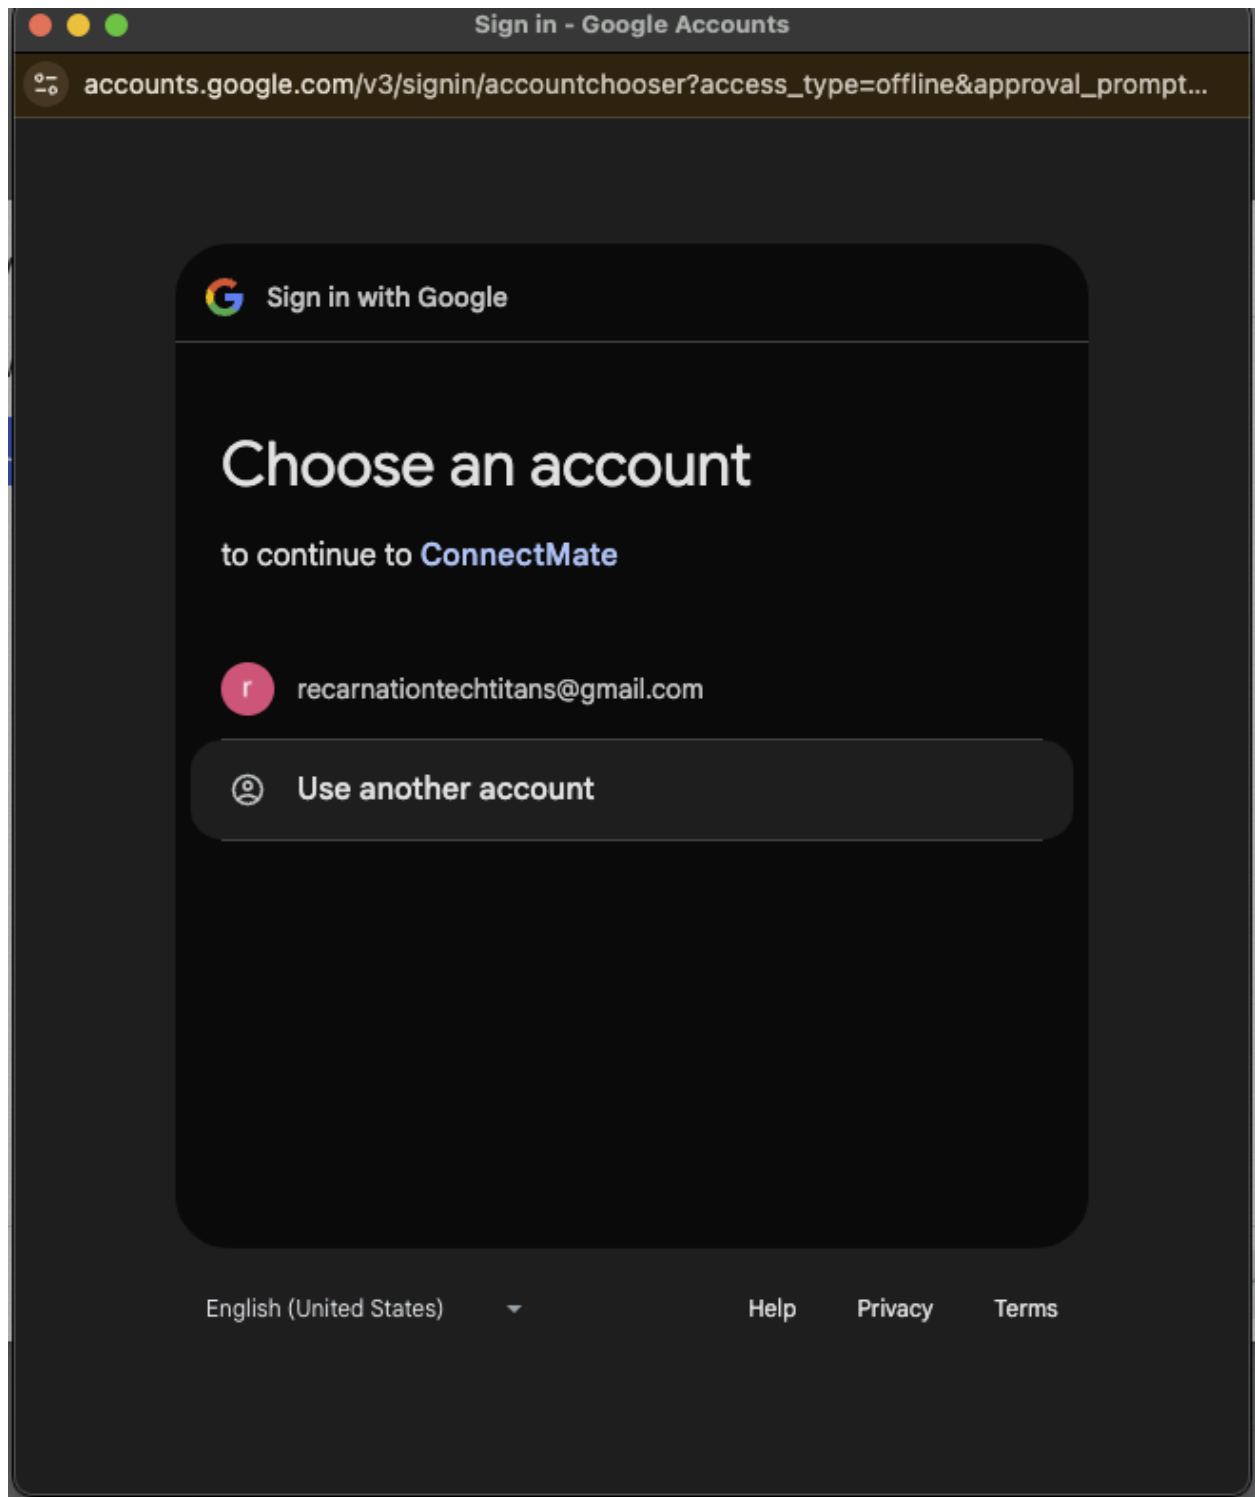

The Web App requires you to authorize access to your data.

Authorize access

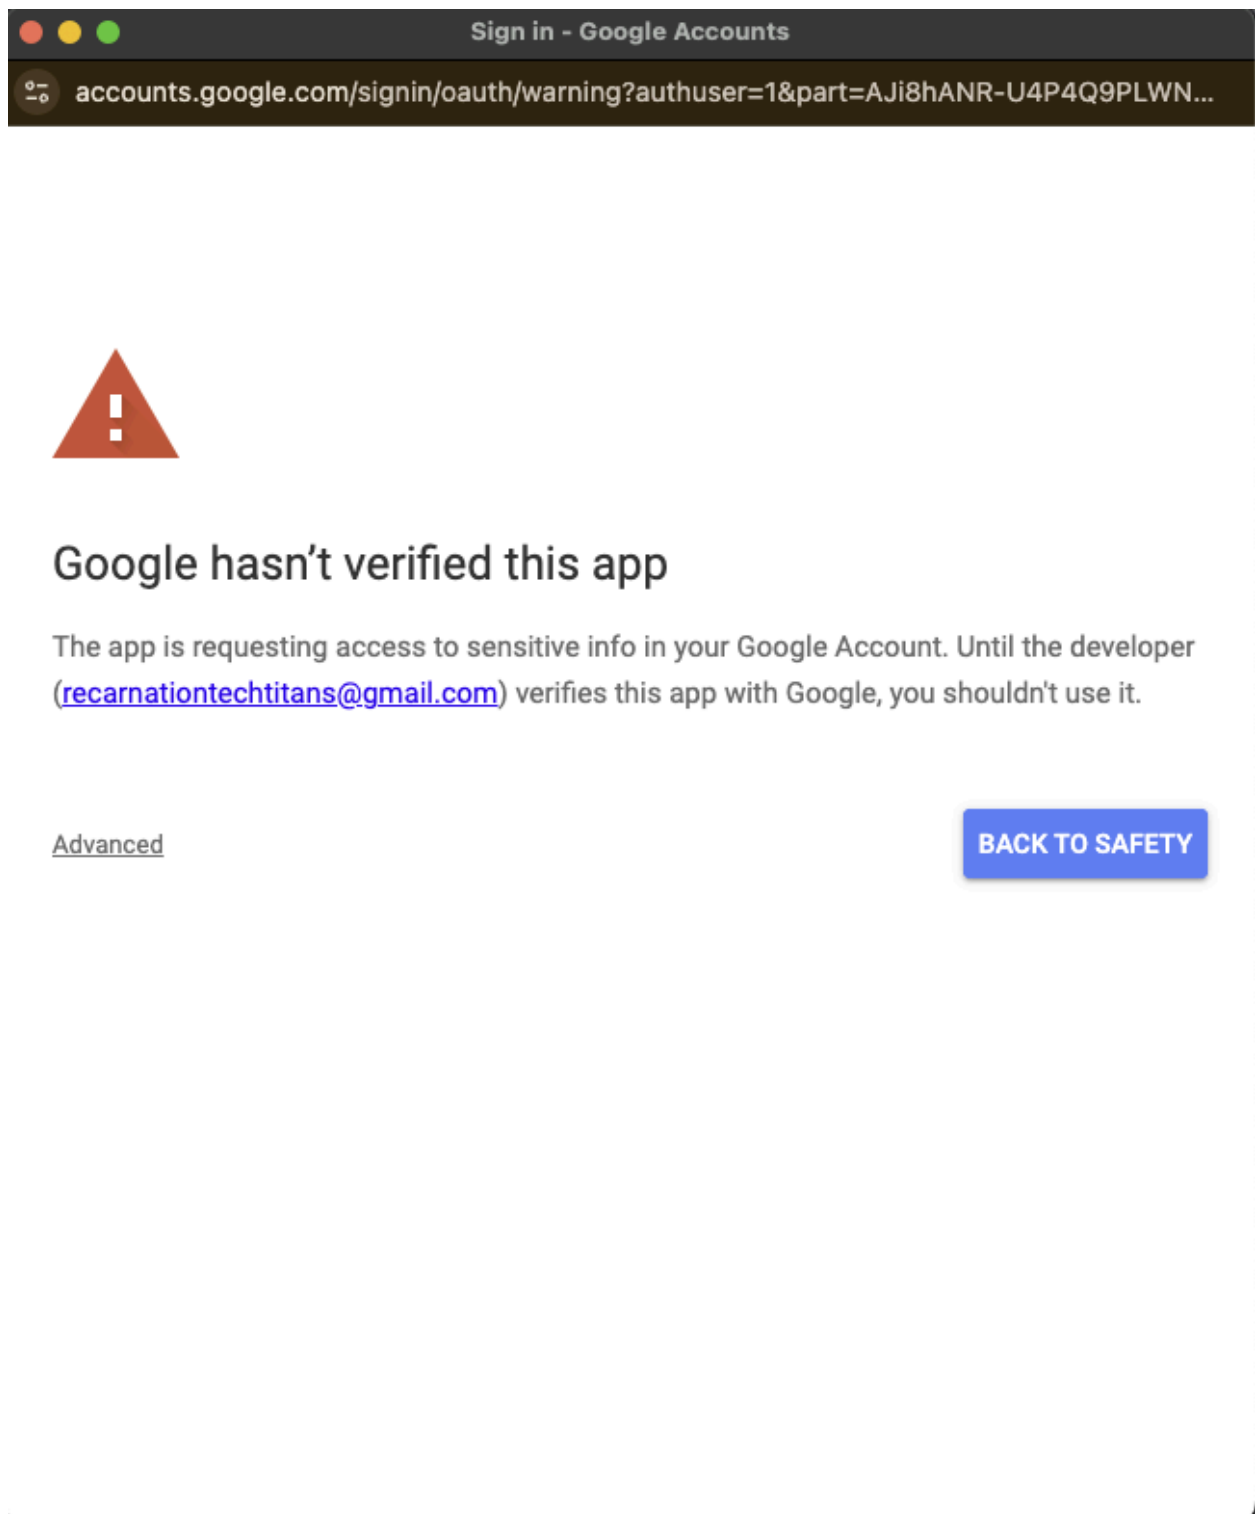

Cancel

Done

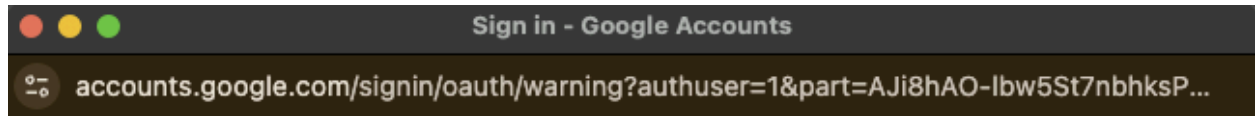

Select your account

You will get a warning notification like this -> for the first time
Click on the **Advanced**

Click on Go to ConnectMate Unsafe *(This is normal — it just gives your script permission to write to your sheet.)*

Google hasn't verified this app

The app is requesting access to sensitive info in your Google Account. Until the developer (recarnationtechtitans@gmail.com) verifies this app with Google, you shouldn't use it.

[Hide Advanced](#)

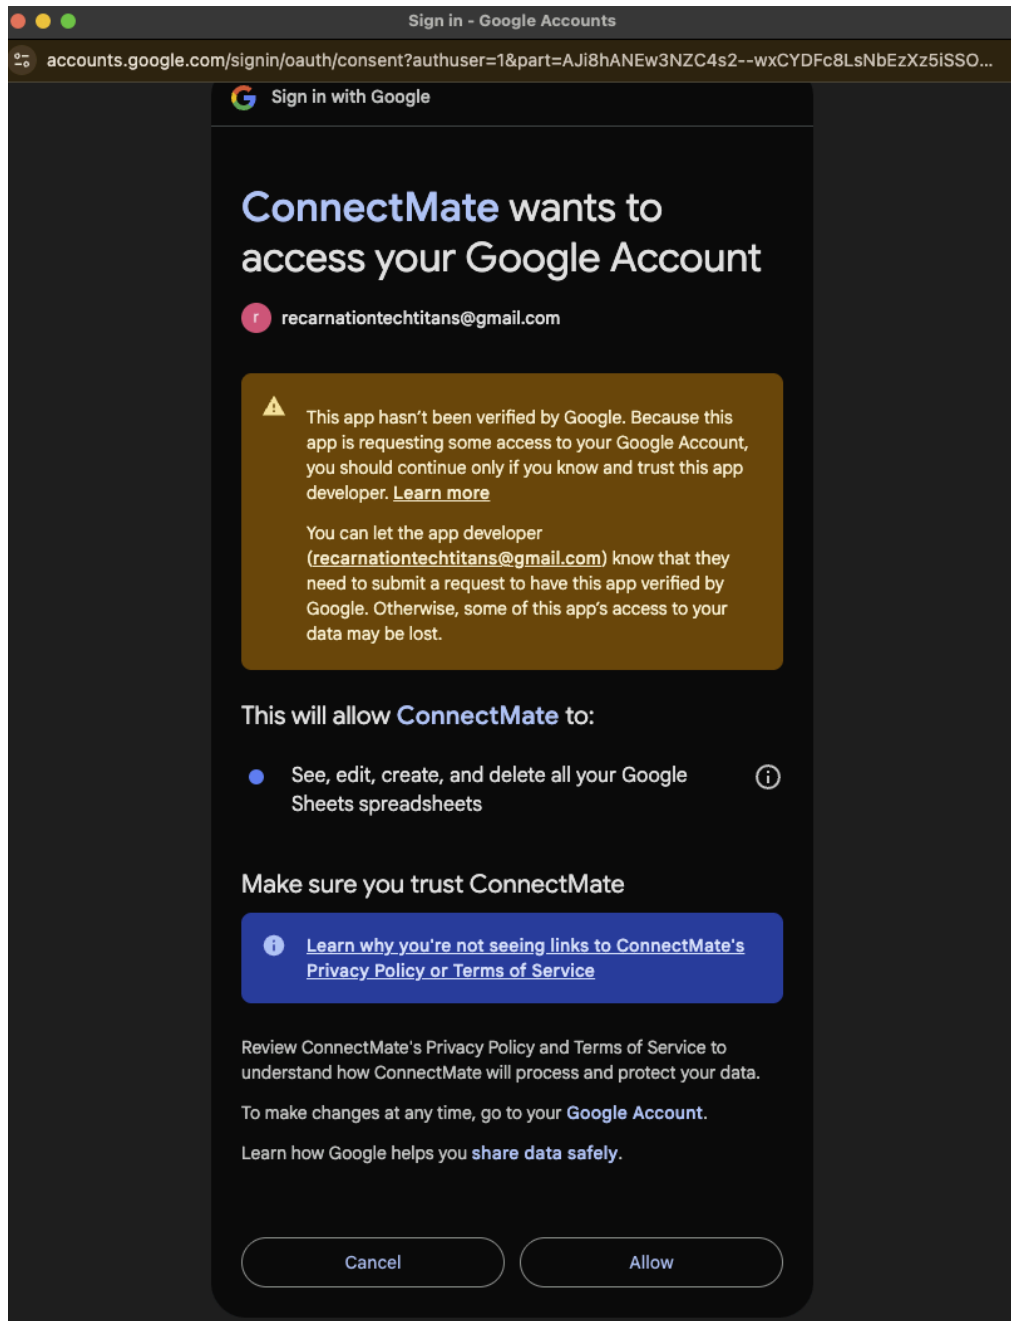

[BACK TO SAFETY](#)

Continue only if you understand the risks and trust the developer (recarnationtechtitans@gmail.com).

[Go to ConnectMate \(unsafe\)](#)

<https://accounts.google.com/#>

Click On Allow

There You get your url to access your spreadsheet through a web application

Tip: You can bookmark the `/exec` link on your phone's home screen to use it quickly during GHC!

If You are facing an issue like this

-Check if you're signed into multiple Google accounts in the browser, Google may try the wrong one.

Try one of these:

- Open the /exec link in an **Incognito/Private** window and log in with the **same account** that deployed it.
- Or create a separate Chrome **profile** for that account.
